

Large Format, High-Resolution

SCANNING SERVICES

We comply with copyright law. You must be the creator of the art piece or have written permission from the artist before we can reproduce it.

Our **CRUSE Synchron 40x60 table scanner** offers non-contact scanning under perfectly homogenous, stable lighting.

Artists appreciate the unique lighting combinations that ensure faithful reproduction of even the finest surface textures.

And we can scan framed art, even under glass!

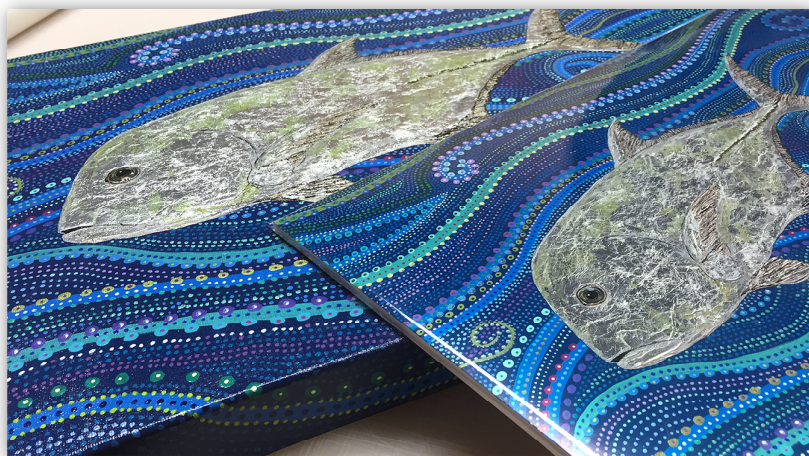

Even today's most advanced equipment doesn't record all colors exactly the same way as the eye sees them. Most scans will need some color adjustment to bring them into line with the original.

Your art is scanned full size at 360ppi. We run tests and make necessary corrections to bring the tones and colors of the digital file to within 90-95 % of the original, provide an 8"x10" sized proof on the media of your choice and copy the final file onto your provided flash drive.

For artists who require exact color matching, we will perform additional spot proofing; making further adjustments and printing test strips at a fee of \$80/hr, in 1/4 hour increments.

Let us capture every detail of your work of art!

Acrylic and foil original shown with reproduction on metallic paper.

Fee Schedule

Up to 8x10	\$75.00
Up to 16x20	\$95.00
Up to 18x24	\$120.00
